

**Membrane Filtration**

# Solutions

We bring purity  
to everything we do.

*Koch Membrane Systems is your strategic partner in an evolving global marketplace.*

**For decades, companies have relied on us to meet their filtration and separation requirements. And we're ready to create a solution for you.**

### Who We Are

For half a century, Koch Membrane Systems (KMS) has been a world-class developer and manufacturer of innovative membrane filtration products serving a global marketplace. We develop the finest filtration membranes, build custom and engineered systems for a broad array of industries, and provide superior technical and aftermarket service and support.

Our products help millions of people live healthier lives by developing better ways to purify the world's water sources, improve food processing, advance biofuel production, and more.

### How Can We Serve You?

With a worldwide installed base approaching 20,000 systems, we continue to set the standard as an industry-leading membrane system provider. Our solutions are at work today in a wide variety of markets that include municipal and industrial water and wastewater treatment; dairy, juice, and wine processing; and industrial biotechnology to name just a few. Everyday, we help thousands

of companies like yours reduce their water footprint, increase productivity, and lower operating expenses.

As your strategic partner, our goal is to discover new and better ways to help you create value. When you work with us, you'll get all of the business advantages of our industry knowledge, selection of specialized products, design expertise, and system commissioning. We thrive by employing the brightest minds in the industry and rewarding innovation. Our engineers have a long history of developing revolutionary technologies and bringing creative and innovative products to market, with superior functionality and efficiency that mean long-term financial benefits for you.

Most of all, you'll benefit from our deep commitment to excellent service. We enjoy solving your most pressing challenges with smart, reliable, cost-effective solutions. We always welcome your input because the needs of our customers propel some of our best innovations.

# Membranes

Serving a diverse range of industries and applications, we manufacture the largest array of membrane products in the industry, including

- Microfiltration (MF)

- Nanofiltration (NF)

- Ultrafiltration (UF)

- Reverse Osmosis (RO)

in hollow fiber, spiral, and tubular configurations, using a variety of membrane chemistries. We vigorously pursue economies of scale to bring you compact cartridge designs with maximum membrane area, improving flux, rejection, and longevity.

# Markets

Our solutions are at work in a wide variety of markets that include:

## Industrial & Life Sciences

- Food
- Beverage
- Dairy
- Industrial Biotechnology
- Pharmaceutical Intermediates
- Automotive & Appliances
- General Industry

## Water & Wastewater

- Drinking Water
- Wastewater
- Water Reuse
- Tertiary Treatment
- Process Water
- Boiler Feedwater
- High-Purity Water
- Desalination

# Systems & Services

As industry leaders in membrane technology, KMS engineers are perfectly suited to customize a filtration solution to your specifications. From concept to piloting to ongoing support, we have the experience to provide an exceptional outcome.

- Standard Systems
- Custom Engineered Systems
- Engineering
- Piloting
- Service
- KMS ASSIST® Service and Maintenance Program

For five decades, Koch Membrane Systems, Inc. has led the way in developing innovative membrane technologies that serve a diverse range of industries and applications around the globe. KMS provides solutions to markets including industrial and municipal water and wastewater, food and life sciences and industrial processes helping thousands of clients reduce their water footprint, increase productivity, and reduce costs. With an installed base approaching 20,000 systems throughout the world, KMS is setting the standard as a comprehensive membrane solutions provider.

KMS is based in Wilmington, Massachusetts, USA with factory direct representatives around the world and manufacturing locations in Wilmington, Massachusetts and Aachen, Germany.
