Koch Membrane Systems to Showcase Filtration Solutions for the Beverage Industry at drinktec, 11-15 September, In Munich, Germany

Visit us at Booth 535 in Hall B3

Wilmington, MA – September 4, 2017 - Koch Membrane Systems (KMS), a global technology leader in development and manufacturing of membrane filtration technologies, announced today they will showcase dedicated filtration solutions for the beverage industry at drinktec, 11-15 September, in Munich, Germany, Booth 535 in Hall B3.

Our wide range of filtration systems specifically designed for the wine, beer, spirits and juice industries will be highlighted, including the Wine-COR, Lees-COR, Beer-COR and SUPER-COR[®] system families. These systems use hollow fiber and tubular membranes, utilizing crossflow microfiltration and ultrafiltration technologies to filter undesirable solids without affecting flavor, mouthfeel, aroma, color, taste or foam stability.

KMS will also present solutions for industrial water, chemical recovery, and wastewater treatment, such as the PURON[®] MP hollow fiber technology to meet high water quality targets, PURON[®] MBR technology for wastewater treatment and Causti-COR[®] caustic recovery solutions.

“We are excited to offer complete process solutions for the beverage industry consisting of KMS standard and customized filtration solutions. That includes the filtration of the product itself and the treatment of the water and wastewater,” said Martin Awe, General Manager, Process Separations, EMEA for Koch Membrane Systems, “It demonstrates our strong commitment to create value to our customers.”

Wine-COR M Options

Wine-COR M-3
Base System

Wine-COR M
Expansion Module

Wine-COR M-12

About Koch Membrane Systems

Filtration for a Better Future...

For more than four decades, Koch Membrane Systems, Inc. (KMS) has led the way in developing innovative membrane technologies that serve a diverse range of industries and applications around the globe. KMS provides membrane filtration solutions to markets including industrial and municipal water and wastewater, food and beverage, life sciences and industrial processes, helping thousands of customers recover high value products, reduce their water footprint, increase productivity, and reduce costs. With an installed base approaching 20,000 systems throughout the world, KMS is setting the standard as a comprehensive membrane solutions provider. www.kochmembrane.com
