KOCH MEMBRANE SYSTEMS ANNOUNCES EXECUTIVE MANAGEMENT CHANGES

Wilmington, Mass. – Jan 4th, 2016- Koch Membrane Systems (KMS) announced executive management changes appointing Manny Singh as President and Mark Farrell as Chief Operating Officer.

Manny Singh has been the Senior Vice President of Technology for KMS for the last 5 years where he was responsible for development and commercialization of a number of new products for both the Water and Wastewater (WWW) and Industrial and Life Sciences (ILS) Businesses. More recently, under his guidance KMS launched the PULSION™ Next Generation MBR and Dairy-Pro™ product lines.

Mark Farrell has been with KMS for 15 years in multiple engineering and leadership roles, most recently serving as the Vice President of Global Manufacturing and Engineering. He was recently responsible for upgrading and increasing production capacity and automation for all KMS product lines and in 2015 building and commissioning the new PURON® Supported Hollow Fiber membrane manufacturing plant in Wilmington Mass. USA.

“Manny with his technical and commercial background and Mark with his operational experience bring complementary skill sets to grow KMS business. We see very high growth potential for both the WWW and ILS businesses. These executive management changes will help refine and implement our business strategy while providing better value to our customers” said David H Koch, Chairman of Board for KMS.
